

BW-1210H Physician Scale with Height Rod

The compact ABS platform with its non-skid footprint, and the adjustable feet ensure stability and safety while the patient or client is being weighed on the scale. The higher strength metal loading structure allows high loading capacity. The unique platform with integrated pillar is a stylish compact configuration which minimizes space requirements.

Functions:

- * Tare function to subtract the weight of the client's belongings.
- * Measure accurately the client's weight data automatically, without touching any keys.
- * The "Hold" key improves weighing accuracy for unsteady or shaking clients.
- * "Recall" key improves record keeping, by displaying the client data after they have stepped off the weighing platform.
- * BMI (Body Mass Index) function

- * Backlight display
- * RS232 interface
